Aluminum Commercial Truck Wheels

Aluminum CT Wheels

These one-piece standard forged aluminum wheels are made of state-of-the-art forging and CNC machining equipment. They come with valve stems installed and are developed in Germany for European customers, offering TPMS compatibility and improved durability. Accuride introduces forged aluminum wheels with Extra Polish (XP) finish, with future offerings of a self-cleaning surface preparation. The wheels are light weight and price competitive, ensuring you receive the best value for your purchase.
